WELCOME BACK

A WELCOME MESSAGE FROM YOUR PRINCIPAL

Welcome Back Global Community,

This year we will be focusing on academic achievement and social-emotional skills. We will be focusing on the themes of responsible decision-making and optimistic thinking in order to support our young people. The combination of academics and social-emotional skills will prepare students for post-secondary success. We will need the help of parents, family members, and all educators to achieve this and I am excited that you are on board.

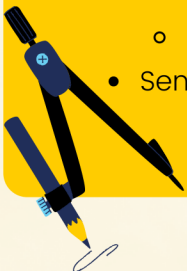

- Principal Vizcaino
